5. National Development

a. Master Planning for Reconstruction:

- **Design & Architectural**

- **Landmark**

- **Feasibility Study**

  o Review some projects & Execute good ones

  o Fast –track process for major infrastructure project

- **Regional Development Agency "R.D.A"**

b. Water and Electricity:

❖ Water:

- Provide clean water

- Purification Plants

- Bottling

- Piping & Reservoirs

- Villages drilling

- Irrigation system

❖ Electricity:

- Improve our Hydro-electric system to serve main cities.

- Windmill & Solar Power in Rural area

- Supply electricity to local people

- Introduce Gas & Biodiesel system

- Use the waste recycling to produce energy

- Power Plants: -Review, implement & Execute existing projects

c. Infrastructure:

❖ Construction:

- Build New:
    - Roads & Bridges
    - Airports
    - Ports & Marina Construction
    - Railways
    - New Cities: each Province
        - Residential & Leisure facilities
            - Real Estate
            - Towns
            - Low cost or Affordable Housing for rural area
        - Industrial Estate
        - Commercial Buildings:-Markets

❖ Maintenance Units:

- Specialize in services
    - Rehabilitation:
        - Repair & Renewal Program
    - Service providers:
        - Accident & Breakdown: Recovery

d. Industrialization and Information Technology

❖ Industrialization:

- Manufacturing

- Engineering

- Architecture

- Smelting

    o Metal minerals

- Refinery:

    o Gold

    o Oil

- **Factories:**

    o Cement

    o Steel & Iron

    o Brick & Quarry

    o Glass

    o Wood

    o Paint

    o Paper

    o Bitumen & Bauxite

    o Salt

    o Palm Oil, Sunflower Oil & Others Vegetable Oil

- o Textile Industry

- o Footwear Industry

- o Plastic Industry

- o Motor, Motorcycle & Cycle Industries

- o Chemical Industry

❖ Telecommunication Infrastructure and IT:

• Infrastructure:

- o Fibre optic technology

  - ▪ To reach every region

  - ▪ Capacity to allow

    - o Telephony
    - o Broadcasting
    - o Internet
  - ▪ Training for local personnel
  - • Support centers

- o Encourage the creation of enterprises to design and manufacture IT and Telecoms related equipments

- o Policy to relax import on New IT and Telecoms related equipment

❖ Information Technology:

- Policies to support
    - o The importation of IT and Telecoms related equipments and services
    - o Establishment and institutions' to educate the public
    - o A body to advice, regulate and enforce such policies
    - o To make IT education a part of the national curriculum
- Establishing of public and private centres to promote and educate the public
- All educational establishment to be equipped with suitable IT and telecoms equipment.
- A minimum standard in IT literacy to be established
    - o Consider adopting or creating a ECDL type of standard (AITDL)
    - o African IT Driving License **(AITDL)**
